

CEYLON COLLECTION

Website & Backend Theme Palette Suggestion

Brand direction

Elegant Sri Lankan fashion with a premium boutique feel. The public website should feel warm, feminine and refined. The backend should stay clean, readable and operational.

Core brand palette

Brand Navy
#142B49
Primary brand anchor

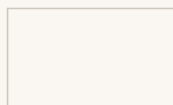

Brand Gold
#B77A17
Luxury accent

Brand Rose
#C77A73
Feminine accent

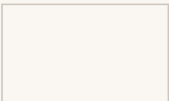

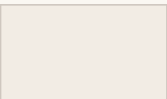

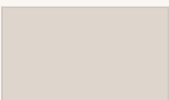

Brand Blush
#E8B9AF
Soft highlight

Brand Ivory
#FAF7F2
Main background

1. Public Website - Elegant Ceylon Collection

Recommended mood: **premium, feminine, warm and trustworthy**. Use navy and ivory as the visual foundation, with gold and rose as controlled accents.

	Primary Navy #142B49 Logo, headings, navigation, main buttons		Secondary Navy #29415F Secondary controls and supporting text
	Warm Gold #B77A17 Premium accents, icons, subtle hover states		Dusty Rose #C77A73 Promotional highlights and feminine accents
	Soft Blush #E8B9AF Soft sections, chips and light backgrounds		Warm Ivory #FAF7F2 Main page background
	Soft Cream #F2ECE4 Cards and content sections		Main Text #142B49 Primary readable text
	Muted Taupe #756E68 Secondary text		Light Beige #DED5CC Borders and separators

Best combination

Navy + Ivory + Gold should carry most of the interface. Rose and blush should support the fashion story rather than dominate the entire UI.

2. Backend - Light Theme

Recommended mood: **clean, professional and premium**. Reduce decorative colors and reserve gold for actions and brand moments.

	Primary #18304D Buttons, links, active navigation		Primary Hover #10243B Hover / pressed state
	Accent #B77A17 Important actions and status highlights		Accent Soft #F5E9CE Selected states and subtle emphasis
	Background #F8F9FA Application shell		Sidebar #18304D Admin navigation
	Card #FFFFFF Cards, modals, tables		Main Text #202733 Primary content
	Secondary Text #697386 Descriptions and metadata		Border #E2E6EA Dividers and fields
	Success #3F8F68 Successful states		Warning #C58A24 Warnings and attention
	Error #C85C5C Error states		

UI guidance

Keep the sidebar navy, the workspace light, cards white, and gold limited to meaningful actions. Avoid using blush or rose for large backend surfaces.

3. Backend - Dark Theme

Recommended mood: **luxury, modern and sophisticated**. Gold becomes more visible against the midnight navy surfaces.

	Background #0F1825 Main application background		Sidebar #121F31 Navigation surface
	Card #1A2738 Panels, cards and tables		Card Hover #213247 Hover / elevated surface
	Primary Gold #D2A34A Buttons and key actions		Primary Hover #E0B45E Hover / focused state
	Accent Rose #C9827C Brand accents and soft highlights		Main Text #F5F1EB Primary text
	Secondary Text #AAB3BF Metadata and descriptions		Border #2B394A Dividers and inputs
	Success #55A77D Positive states		Warning #D4A449 Warnings and attention
	Error #D57474 Error states		

Recommended brand rule

Keep the same five core brand colors across the whole product: Navy **#142B49**, Gold **#B77A17**, Rose **#C77A73**, Blush **#E8B9AF**, Ivory **#FAF7F2**. Let the UI surfaces change between light and dark themes while the brand identity stays consistent.
